

Waste OilPRO MINI⁺ - Turnkey

DOUBLE WALL RELIABLE STORAGE

BUILT WITH SAFETY AND THE ENVIRONMENT IN MIND

Following the North American success of TECALEMIT's Lube Oil platform, better and more efficient turnkey solutions are now being introduced. Meet the new Waste OilPRO Mini+ – a full, turnkey solution that speaks value, performance, and reliability. This is an ideal solution that allows easier handling, greater stability, and facilitates access to tight spaces. Double wall construction provides peace of mind, starting with a leakproof outer tank, weld-free galvanized steel, roll-seamed with an oil and fire-resistant seal. The inner tank is blow-molded, with HDPE that is seamless and leakproof.

Save time and resources by selecting TECALEMIT's approach at customization.

OPTIONAL ITEMS

Stinger

Air diaphragm pump
1/2", 3/4", 1"

OPERATIONAL FLOW

The Waste OilPRO mini+ turnkey package is fitted with a 4-way ball valve system, allowing the user to easily direct the flow of product. You can reverse the fluid direction so that you can easily pull product into the tank when you go around picking up oil.

Once you arrive back at your main yard, all you have to do is engage the 4-way ball valve to redirect fluid to flow out, thus allowing you to empty your tank. These small details add to a better user experience without the complexity of multiple valves or components.

Waste OilPRO MINI⁺ - Turnkey

DOUBLE WALL RELIABLE STORAGE

BUILT WITH SAFETY AND THE ENVIRONMENT IN MIND

Each tank undergoes thorough testing, including ultra-sound and pressure testing, to ensure optimal thickness and sealing.

DOUBLE WALL DESIGN

Uniquely designed tanks are the safest and most reliable double wall set ups on the market.

SLIM FOOTPRINT

Slim design makes it more flexible for product placement and overall handling of these packages.

CLOSED LOOP SYSTEM

Maintaining product integrity for overall best performance and on road reliability of your vehicles.

OIL PUMP

This package would not be complete without the double air diaphragm pump, allowing it to be fully reversible.

WARRANTY

All Mini⁺ double wall tanks come with a generous 30 year limited warranty.
