

DEF PRO-5000

MOBILE BULK TRANSFER PACKAGES

PORTABLE SYSTEMS TO GET YOU WHERE YOU NEED TO GO

The DEF Pro-5000 systems are mobile high flow transfer systems. These units are designed for bulk-to-tote, tote-to-tote, or bulk dispensing. Simplicity and robustness are at the heart of these complete systems. Featured below are TECALEMIT's standard DEF Pro-5000 systems, however, we can customize these units to meet the exact needs of your customer. Let us know how we can help you push the limits!

BASIC 25 GPM

HIGH FLOW 55-65 GPM
