VISION	MISSION	VALUE	GOAL
Never settling, but striving to take our customer's every day issues and find painless, cost-effective solutions	From start to finish, our mission is to exceed customer expectations	Customer satisfaction is the basis for our long-term collaboration with our partners	Our expanding goal is to always improve our company culture and continue to develop our equipment line of products

GO WITH THE FLOW.

TECALEMIT's equipment solutions extend beyond off-the-shelf items. We design and build custom high-flow transfer packages from dollies, to skids, wet hosing systems, and truck belly boxes.

These systems are carefully designed to meet the individual needs of the customer so you don't end up with wasted space on the unit, in your warehouse, on your truck, or in the field.

The PRO-5000 Transfer Pump Dolly Systems offer mobility and flexibility at the highest level, while our PRO-6000 series of Transfer Pump Skid Systems are designed for bulk-to-tote, rail-to-bulk, or bulk dispensing.

TECALEMIT's Truck Belly Boxes offer the space efficiency you've been searching for, while the DEF Wet Hosing Systems offer the ideal solution to onsite refueling.

# PRO-5000

TOTAL MOBILITY

The DEF Pro-5000 systems are mobile high flow transfer systems. These units are designed for bulk-to-tote, tote-to-tote, or bulk dispensing. Simplicity and robustness are at the heart of these complete systems.

Featured are TECALEMIT's standard DEF Pro-5000 systems, our lube oil system, and our explosion-proof system for washer fluid, however, we can customize these units to meet the exact needs of your customer. Let us know how we can help you push the limits!

All carts are fully welded and powder-coated for long-term reliability and durability.

# HIGH FLOW SKID SYSTEMS

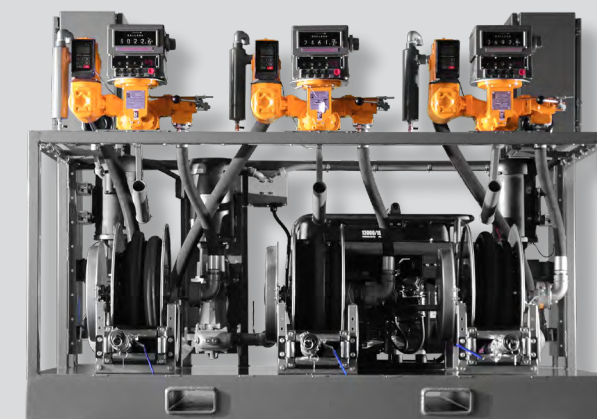

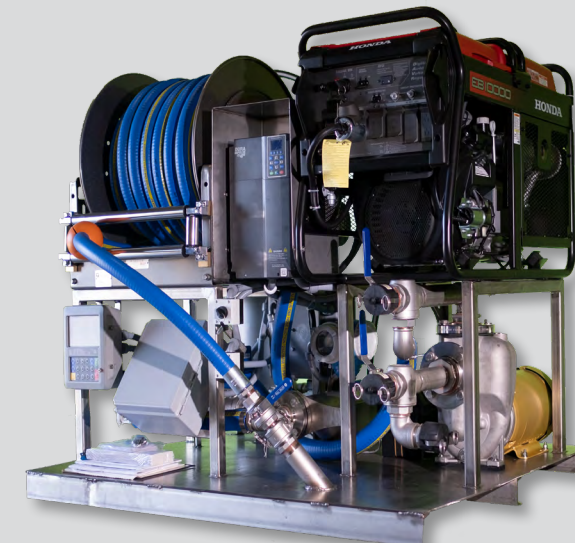

No one else in the industry does it quite like us. TECALEMIT's special projects team is dedicated to designing and engineering the best high flow transfer pump skid systems in the market.

TECALEMIT's DEF Pro-6000 systems are designed for bulk-to-tote, rail-to-bulk, or bulk dispensing. These systems are offered in various packages to meet specific flow rate ranges. They can be configured from simple packages, to more complex ones with Weights & Measures components or Different power sources.

TECALEMIT's Pro-6000 Series expands beyond just DEF. In fact, we design and build high flow transfer skid systems for just about any fluid. The Pro-6000 Series embraces the high flow bulk transfer for fuels, lubes/oil, Diesel Exhaust Fluid (DEF), as well as specialty chemicals.

## AVAILABLE ACCESSORIES

## TRUCK BELLY BOXES

## UPGRADES, REPAIRS & SERVICES

TECALEMIT's custom, turnkey Truck Belly Boxes are available in a variety of sizes with endless optional features to meet your specific needs. Each Truck Belly Box is made to order and designed to meet your individual needs. Additionally, each system is assembled by our dedicated Projects team and skilled personnel.

TECALEMIT's Special Services & Projects division is ready to get you back on the road quickly, safely, and with the reliability you expect from TECALEMIT.

Pump systems are our specialty, so when it comes to tank truck belly box repairs, upgrades, or completely refurbishing your truck box pump systems, no one has a more well-rounded offering than TECALEMIT. Our technicians have over 10 years' experience in the DEF, lube oil, and diesel fuel bulk transfer industry, building new systems, and upgrading existing ones.

If your truck box, trailer, mobile skid, or anything else requires maintenance, we are here for you! We have many accessories to get the job done, including meters, pumps, hoses, filters, and in-stock fittings to get the job done.

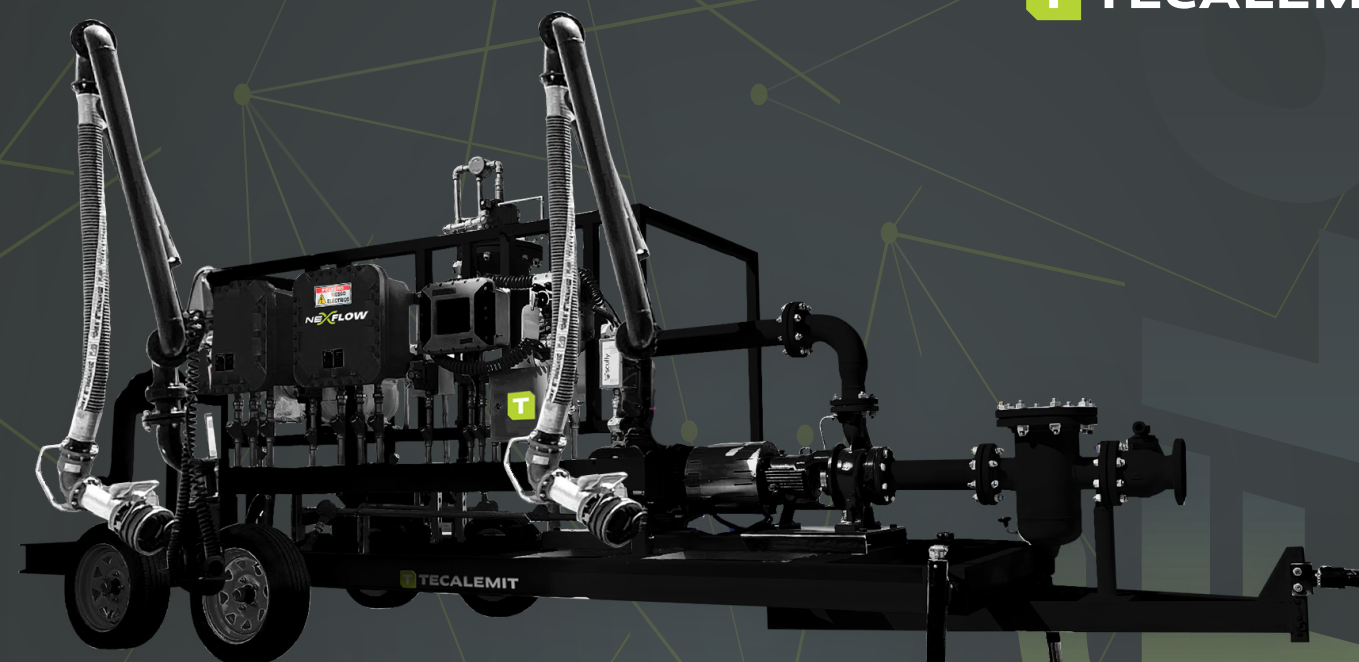

TECALEMIT designs and builds DEF Wet Hosing Systems. These systems are the perfect solution for mobile fueling and on-site refueling where a delivery truck directly refills company vehicles and equipment on location.

# NEXFLOW

Discover the Nexflow Series, Tecalemit's innovative solution in high-flow bulk transfer systems. Designed for efficiency, reliability, and versatility, the Nexflow series is engineered to meet the rigorous demands of various industrial applications including emergency response situations. Experience the future of bulk liquid transfer with Nexflow.

- **Petroleum Midstream and Downstream Industries:** Ideal for handling large volumes of fuel efficiently.
- **Aviation Sector:** Suitable for rapid fueling and defueling operations at airports.
- **Marine and Barge Operations:** Efficient in bulk fuel transfers for marine applications.
- **Emergency Response Sectors:** Essential for rapid and dependable fuel transfer in critical emergency response situations.
- **Government and Military Operations:** Reliable for rigorous and demanding fueling requirements in defense and government sectors.
- **Petrochemical Terminals:** Perfect for handling bulk transfers of various petrochemicals with precision and safety.

GO WITH THE FLOW.

**T** TECALEMIT

When it comes to Fluid Inventory Management Systems, accuracy is key. TECALEMIT's range of systems provide just that. From standalone units to complete dispensing packages, our portfolio has it all.

The industry-known Wonderbox and Superbox units offer 1-hose, 2-hose, and 5-hose options, while our line of HDM eco Dispensers and our M1 Pro System offers built-in Fluid Inventory Management Systems for plug-and-play-ready packages.

Allocate for every drop dispensed and easily manage and monitor transactions between your choice of LAN, WiFi, USB, or our cloud-based application, <sup>TM</sup>.

# DOUBLE-SIDED DISPENSER

## TECHNICAL SPECIFICATIONS & FEATURES

12V G80C Continuous duty cycle pump
12v Wonderbox
FMOG-100 Digital Meter
13-ft 1" dispense hose
Diesel fuel filter hookup available

The FIS platform consists of an electronic dispenser for refueling vehicles in either a standalone application or integrated to a fuel management system. The dispenser is comprised of a suction pump, oval gear flow meter, dispensing hose with automatic nozzle and head unit for controlling and tracking dispensation.

These FIS solutions are optimized for delivery of diesel or DEF and integration to the Tecalemit Superbox (and 3rd party electronic management systems). These systems are ideal for users that like the Eco 80 for being fully integrated and plug-and-play but need a solution for sites with more than one dispensing point to track.

## Remote Eco 80

Pump: Hornet W80 Diesel
Meter: FMOG100 without Display
Solenoid Valve: 1" Solenoid Valve
Hose: 13' Diesel Hose (1" diameter)
Nozzle: A2010 Diesel Nozzle

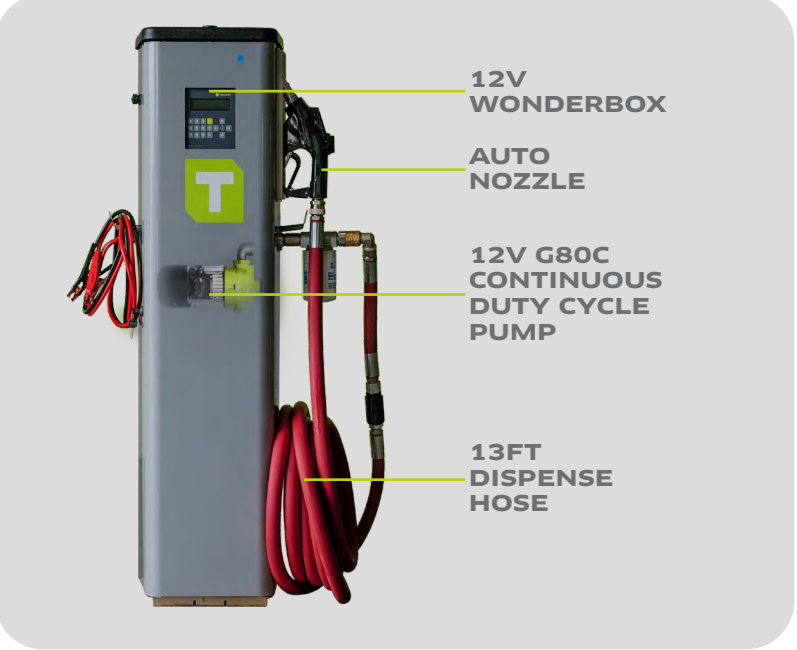

## Remote Eco High Flow

Pump: Configurable (No pump included)
Meter: FMOG150 without Display
Solenoid Valve: 1 1/4" Solenoid Valve
Hose: 13' Diesel Hose (1" diameter)
Nozzle: A2015 Diesel Nozzle

## Remote Eco DEF

Pump: Hornet W85 DEF
Meter: FMOG DEF without Display
Solenoid Valve: 3/4" Solenoid Valve
Hose: 13' DEF Dispense Hose (3/4" diameter)
Nozzle: SS01 Nozzle

# DIESEL Dispensing Package

## Configuration options:

- Pump or no pump.
- Solenoid valve for flow control (Remote Eco has a direct board connection for the pump and solenoid valve).
- Upgrade to FMOG150 meter.
- Control interface for 3rd party FMS.

# OIL MANAGEMENT SYSTEM

Keep an eye on levy and inventory control and switch to the new wireless TECALEMIT oil management system “TMS smart”. Optimize your inventory control, maximize your profit and benefit from complete control with maximum flexibility and reliability.

As a standalone system or connected to an existing dealer management system (DMS) - the TMS smart family, combined with our myTecalemit fill level monitoring, offers you the most modern oil inventory monitoring and dispensing system currently available on the market.

**Your advantages at a glance:**

- One system for mobile and stationary application
- Simple installation
- Fast and easy operation
- Precise measurement and dispensing
- Full control via “TMS smart Control” software
- Fast payback with price advantage over conventional systems
- Can be easily integrated into existing systems

**TECHNICAL SPECIFICATIONS & FEATURES**

Viscosity range	20 - 2000 mPa s
Smallest volume flow Q min	0.2 gpm
Largest volume flow Q max	+/- 2.5 gpm
Max. Operating pressure p	70 bar
Threaded connection	G 1/2" internal
Measuring accuracy	+/- 1% (+/-0.5% following calibration)
Weight	3.7 Lbs
IP protection	IP54
Permitted operating temperature	14°F to +131°F
Permitted storage temperature	-4°F to +158°F
Authorised liquids	Engine oil, gear oil, hydraulic oil, radiator antifreeze, diesel, heating oil

**TMS smart Gateway**

The central communication and control unit manages the data processing and controls the communication among the devices.

GO WITH THE FLOW.

**T** TECALEMIT

TECALEMIT's range of transfer pumps are second to none. Each unit was uniquely designed with the end user in mind. We understand the importance of efficient pump designs that allow customers to obtain a greater ROI.

TECALEMIT now offers three 100% continuous-duty cycle pumps in our portfolio for DEF and Diesel - both 110V and 12V. Our range of hand and pneumatic pumps are also available and provide ideal solutions for smaller applications.

TECALEMIT's collection of transfer pumps can handle configurations large and small. They're known in the industry for dispensing longer distances, having greater suction lifts, and offering higher flow rates.

In addition, TECALEMIT's pumps are compatible with a wide range of fluids including DEF, diesel, water, antifreeze, oils, and chemicals.

TECALEMIT

TECALEMIT designed the original “all-in-one” DEF storage and dispensing system, which we designated the DEF-Pro All In One System™.

Known in the industry for its performance, value, and incredible return on investment, the turnkey DEF-Pro All In One System provides a solution for the increasing demand for DEF.

These packages come in a variety of configurations for both warm or frigid climates. They’re also available in a variety of tank gallon capacities and provide the ideal means to safely store and dispense DEF.

Trust the creators of the original system. Trust the T.

A HORNGROUP BRAND

# THE FAMILY OF ALL IN ONES

TECALEMIT's promise is to provide customers with products and services of premium quality, and to exceed customer expectations. For our All In One™ mini bulk tanks, our promise extends to providing the best turnkey mini bulk tanks with a small investment upfront, and a quick ROI in return.

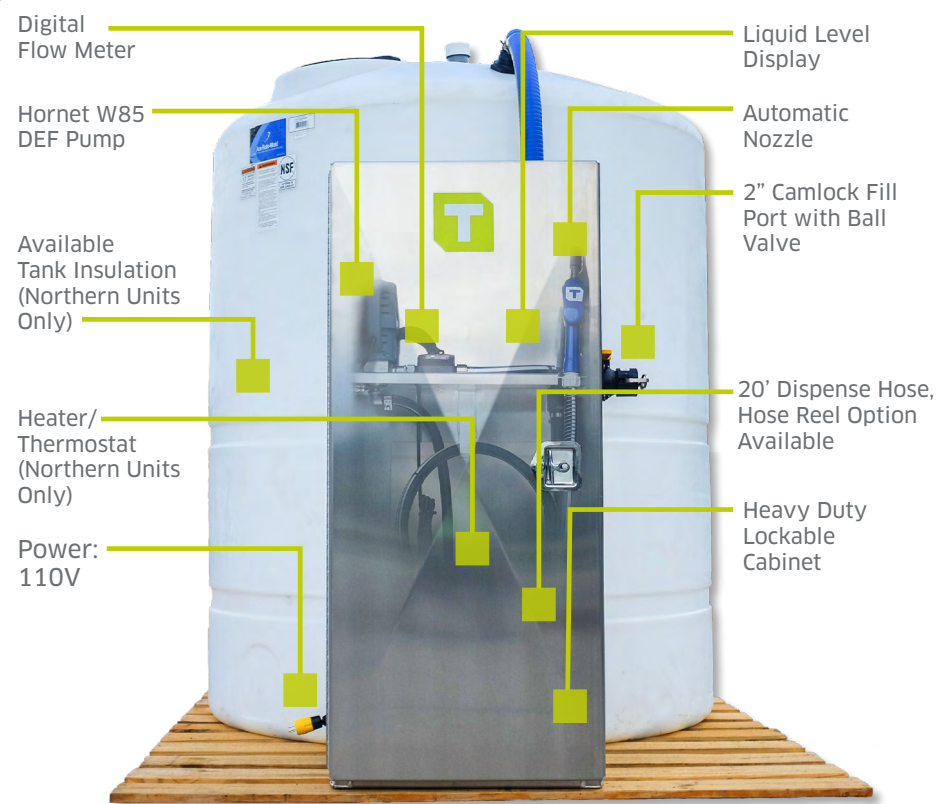

Our innovative all-in-one tank setup has become a staple in the industry – and because of so many requests, we've expanded it to handle more than just DEF. We now offer variations for DEF, oil, coolant, and windshield washer fluid. Our All In Ones come in several different builds to fit your needs or budget, including an economy package, packages with lockable cabinets, fuel management systems, packages for northern and southern climates, and high-flow packages.

Our sizes include:

- 525 gallons
- 750 gallons
- 1000 gallons
- 1500 gallons
- 2000 gallons
- 3000 gallons
- 6500 gallons

# GENERAL INFORMATION

The terms and conditions hereof shall govern the rights and responsibilities of the parties notwithstanding any additional, different, or inconsistent terms contained in any order by Buyer, which Seller hereby expressly rejects.

This sale of goods is conditioned upon Buyer's acceptance of the terms and conditions herein contained. Seller hereby expressly rejects any and all terms in any purchase order or other document of Buyer which are in addition to, different from, or inconsistent with these terms and conditions. If this is a Quotation, it is an offer to sell, subject to final approval by Seller. The offer may be withdrawn at any time prior to receiving Buyer's acceptance, and the offer shall expire automatically if not accepted within thirty (30) days from the date on the face hereof.

All orders are subject to written acceptance and approval by Seller at the Seller's home office, Humble, Texas U.S.A. and subject to approval by Seller's credit department. Payment must be made in full prior to the commencement of any product preparation or fabrication unless alternative payment arrangements are included within the Sales Order and subsequently approved by Seller's Credit Department.

# 24 MONTH LIMITED WARRANTY

Seller warrants to Buyer that all equipment or parts thereof manufactured by it will be free from defects in material and workmanship only, under normal use and service, for a period of two years from the date of original shipment. The Seller shall not be liable for any loss of profit, loss by reason of plant shutdown, non-operation or increased cost of operation, loss of product or materials, or other special or consequential loss or damages. This warranty will not apply to any equipment (or parts thereof) which have been subjected to accident, alteration, abuse, or misuse.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED (INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) and of all other obligations or liabilities on the part of the Seller, and the Seller will neither assume nor authorize any other person to assume for it any other obligation or liability in connection with this equipment. Our liability shall be limited to the purchase price of this equipment.

This Warranty does not extend to products or components not manufactured by the Seller, but furnished as part of its equipment (for example: motors, starters, thermometers, controls, etc.), as to such products and components Seller conveys to Buyer the warranty, if any, of Seller's suppliers, to the extent transferable without additional cost to Seller.
